

Introducing Upknowledge

The learning specialists

Upknowledge creates, delivers and manages high-quality learning and support solutions. Work with us to improve your competencies and to create learning solutions for your own product offerings.

Meet small and large challenges

Upknowledge products, services and ready-made solutions simplify all your professional learning challenges, from filling knowledge gaps with single training courses to the management of complete learning solution portfolios.

Find a solution adapted to your view

Upknowledge learning products are specially designed for adaptation. With the supporting toolset, Upknowledge adaptive products allow you to create and manage an effective, customized learning solution portfolio without the typical cost of custom development.

Extend your organization

To add training competence to your organization, just pick suitable services from Upknowledge. Our services are designed for adaptation and are easy to plug into your processes.

Improve learning results

Upknowledge trainers and learning solution designers are competent in both their subject area and in contemporary learning methods, including classroom, e-learning and blended learning. Our advanced processes and tools help in maintaining consistent quality.

Global availability

Upknowledge serves you with local language training resources in Finland, Spain, Tunisia, Brazil and Singapore. Other international locations are served from these key sites.

Results through quality

Founded in 1995, Upknowledge is a trusted supplier for large multinationals, with a proven track record in providing high-quality learning solutions. As our client, you notice our attention to quality – ensuring excellent results and your competitive advantage.
